Professional Summary

Motivated IT undergraduate with strong fundamentals in Python, C++, SQL, and DBMS.
Hands-on experience through a Data Engineering internship working on SQL-based ETL pipelines and basic AWS services. Seeking an entry-level role to apply academic knowledge in a professional environment.

Education

Jabalpur Engineering College **Oct 2022 – Present**
Bachelor of Technology in Information Technology **CGPA:** 7.19

Work Experience

Data Engineering Intern (Manu Digital Services)

June 2025 - Aug 2025 | Indore, Madhya Pradesh, India

- Worked on SQL-based data transformations as part of **ETL pipelines** following the **Medallion Architecture** (Bronze, Silver, Gold layers).
- Assisted in running and testing AWS Glue jobs and validating processed data using **Athena**.
- Used AWS services such as **S3 and Lambda** to support data processing workflows.
- Performed data validation and basic debugging using **CloudWatch logs**.
- Collaborated with team members using **Git** and followed structured development practices.

Project

Amazon Sales Data Analysis

Tools: Python (Pandas, Matplotlib)

- **Analyzed Amazon sales data** to identify customer behavior, product performance, and regional trends.
- **Visualized B2B vs B2C performance** using data visualization techniques.
- **Derived actionable insights** to support inventory and marketing analysis.
- Github: github.com/Pranayjain0960/Amazon_Sales_Analysis

Real Estate Market Analysis Dashboard

Tools & Technologies: SQL, Power BI

- Performed **SQL-based exploratory analysis** to study property pricing variation, price-per-sqft patterns, and agent performance metrics across multiple cities.
- Created a **Power BI dashboard** enabling comparison across city, property type, and agent performance indicators.

Skills and Competencies

Programming Languages: C++, Python, SQL
Core Subjects: Object Oriented Programming, Operating System, DBMS, DSA, Computer Networks
Visualization & BI Tools: Power BI (Basic), Matplotlib
Database: MySQL
Data & Cloud Tools: AWS (Basic experience with S3, Lambda, Glue, Athena, CloudWatch, Step Functions)
Tools & Platforms: Git, Github
Soft Skills: Communication, Team Collaboration, Problem-solving, Analytical Thinking, Adaptability
